Summary

Hey! I'm a Brazilian who is passionate about building high-impact, well-performing user experiences. I believe that work is a big portion of my day, so I try to make the best out of it for me and my colleagues. To achieve that I focus on empathy during conversations and try to deliver something I'm happy with.

Experience

5 years as full-time and 1 year as intern.

Sportradar - Software Engineer (Senior)

03/2018 - Ongoing · 3 yrs 7 mos · Trondheim, Norway

Sportradar is the world's leading sports data company, have clients like NHL, NBA, FIFA and NASCAR.

- Improved DX for micro-frontend teams. One of the achieved results was a reduction of avg. 70% in build times;
- Reduced by 87% the number of software vulnerabilities over two teams, either by triage or by development advising;
- Resolves performance issues on applications with high level of data updates or high amount of data;
- Supports hiring, onboarding and mentoring new employees;

Meta - Software Engineer (Mid-level)

03/2016 - 01/2018 · 1 yrs 10 mos · Recanto Maestro, Brazil

Meta is an international IT outsourcing enterprise, have clients like Sascar, Unimed and O Boticário.
